<b>CONFINED SPACE UNIT</b>				

*Additional dates can be made available at client request, however minimum delegate numbers do apply.*

*\*\*These courses incur a small additional fee for certificate fees from the awarding body*

## MOBILE TRAINING UNIT

Our Mobile Confined Space Training Unit, enables our team to carry out training at a location of your choice. Our trailer mounted unit is fully versatile and also accommodates offsite Confined Space Entry Training.

## AQUATERRA RESCUE KIT (ARK)

Our ARK system is designed for work at height and confined space rescue operations. It is an essential rescue system, allowing you to react immediately, 'straight from the bag' and offers a manually operated system to raise and lower rescuers and casualties.

## STANDBY RESCUE CAPABILITIES

We provide standby rescue teams for confined space entry tasks. Our highly qualified and experienced team can provide cover on an ad-hoc basis to suit your needs.
